EXPERIENCE

Full-Stack Developer

[RoundTechSquare](#)

📅 June 2023 – Present

📍 Remote

- Architected and optimized **frontend performance** on **client-facing platforms** using **Advanced React Patterns**, reducing load times by **25%**.
- Led **end-to-end delivery** of **3+ concurrent client projects** (incl. e-commerce & B2B portals), achieving **95% client satisfaction**.
- Led **UI development** for an **e-commerce launch** and executed **UI/UX overhaul** for another client platform, improving user flow.
- Resolved critical **post-launch bugs** (authentication, state management) under pressure for an **e-commerce platform**, ensuring **stability**.
- Rapidly adapted to requirements, designing and implementing a full **guest checkout flow** for an **e-commerce site** overnight.
- Proactively developed the '**GCP Media Viewer**' internal tool, which improved workflow. Additionally, I identified and escalated a **GCP security vulnerability**.
- Executed robust **end-to-end system integrations** for client projects, enhancing performance and **scalability by 40%**.

React Developer Intern

[Parassolutions](#)

📅 Nov 2023 – May 2024

📍 Mumbai, India

- Contributed to two major client projects during the internship period.
- Developed software facilitating **banks** and **fintech clients** to manage pending loan notifications, communicate via SMS, email, and WhatsApp, improving **client interactions** and operational efficiency.
- Assigned to create a portal for vendors to streamline **ID** and **business card ordering**.
- Initiated the development process from scratch using **React.js** and **Typescript**, Integrated **CRUD** operations using **Redux-toolkit** to enable seamless data management.
- Leveraged **Tanstack React Query** for efficient API management and data fetching.
- Successfully incorporated **shadcn** styling, resulting in an aesthetically pleasing and intuitive interface for users.
- Delivered a user-friendly and **efficient portal**, reducing manual processes and enhancing overall productivity for financial institutions.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, Typescript, C++
- **Frameworks:** ReactJS, NextJs, NodeJS, ExpressJS, Redux
- **Databases:** SQL, MySQL, MongoDB
- **Other Skills:** Data Structures, Algorithms, Debugging
- **Tools:** Git, Github, VS Code, Postman, Vim, Npm

EDUCATION

B.E. (IT) - 9.00 CGPA

Xavier Institute of Engineering

📅 2020 – 2024

📍 Mumbai, India

PROJECTS

Case Canvas

- **NextJs** | **Typescript** | **Framer motion** | **React-Query** | **PostgreSQL** | **Prisma** | **Stripe**
- Developed CaseCanvas, a full-stack Next.js application enabling users to create personalized phone cases.
- Engineered a **robust backend infrastructure** using PostgreSQL and Prisma, with seamless **Stripe integration** for secure payments. [Github](#)

CommuniSafe

- **ReactJS** | **NodeJS** | **ExpressJS** | **MongoDB** | **Google Maps API** | **PWA** | **i18n**
- Created a web application with **automated alerts**, local resource directories, and **real-time incident reporting**.
- Implemented role-based access control and integrated **GeoLocation** and multimedia features.
- This resulted in a robust **CRN** that promotes community collaboration and disaster resilience through essential information transmission and efficient response systems. [Github](#)

Freelansters

- **ReactJs** | **NodeJs** | **ExpressJs** | **MongoDB** | **Material UI** | **Styled-Components**
- Freelansters, a dynamic freelancing platform, streamlines project posting for clients and job searching for freelancers.
- Advanced **search filters**, keyword optimization, and sorting functionalities enhance user experience. Ensured security with **JWT-Auth** for user authentication. [Github](#)

ACHIEVEMENTS

- Surpassed **15,000+** downloads for my VS Code theme [jellyfish-x-retro](#).
- Developed a trending [Nextjs-starter-template](#) package, garnering attention and adoption within the Npm repository.
- Achieved a **5-Star Rating** on HackerRank in Problem Solving
- Secured second place in a [hackathon](#) hosted by SFIT.
